

April 30, 1975

to the State Bar Association and to be assessed on a per capita basis to the members of the Nebraska Bar Association. Signed Senator Warner..

SENATOR WARNER: Mr. President, obviously, that amendment is offered facetiously and I will withdraw it but I only offer it in order to point out that it would be improper for any kind of an educational facility which benefits all citizens of the state to attempt to assess the cost of that operation or for that facility to those who you might try and determine were directly affected.

PRESIDENT: You are withdrawing your motion.

SENATOR WARNER: After I get done talking about it, Mr. President. I guess the point is made, Mr. President. I took your cue and I withdraw it.

PRESIDENT: Well, we only have one other light on and it is not Senator Keyes right now. Senator Burbach. Oh wait. You are asking unanimous consent. Is there an objection to the withdrawal? Seeing none, it is ordered. Senator Burbach.

SENATOR BURBACH: Mr. President and members of the Legislature, occasionally Senator Keyes does have a brilliant idea but this is not one of those occasions. Senator Keyes, this is a different project on soybeans, the intent of LB 74 is entirely different. It is for the programming and sales of a product and also for better plant breeding and so forth. But here is a case, I think Senator George and Senator Warner made their point very loud and clear. A product that comes from the earth turns over seven times in making wealth for this state and any other state and it sure in the world enlarges and grows on all industry and the entire economy of the state and not tied only to agriculture. So I think this amendment is in very bad taste and I hope this body will defeat it.

PRESIDENT: Senator Keyes, do you have the courage to close?

SENATOR KEYES: Mr. President, my very good friend, Senator Burbach and Senator Warner have made some statements that are very good but the first recipient of an improved variety of corn comes to me or my farm and then the rest of you make a profit off of handling it. I ask withdrawal of the amendment.

PRESIDENT: It is so ordered.

CLERK: Mr. President, the next amendment is offered by Senator Warner. It is a computer printout which has been distributed in your Bill books which consists of an 11 page amendment. And then, Mr. President, there is also a Warner amendment to the amendment which I think would properly be adopted first found on Page 1427 of the Journal.

SENATOR WARNER: Mr. President, I would just as soon take the longer one first and then, if that is adopted, do the second one. Mr. President and members of the Legislature, pardon...

CLERK: The amendment is not on that Page. It is in your Bill book, a white copy.
